During the six months ended October 31, 2021, the Company paid \$272,105 (MXN\$4,396,394) (2020 – \$242,394 or MXN\$3,999,868) in IVA on expenditures incurred in Mexico. The collectability of these amounts is uncertain, therefore the Company has written off these amounts in exploration costs through profit and loss during the six months ended October 31, 2021 and 2020, respectively. During the six months ended October 31, 2021, the Company received \$35,387 (MXN - \$571,744) (2020 - \$698 or MXN - \$11,526) in IVA refunds on expenditures incurred in Mexico in prior periods.

The accompanying notes are an integral part of these condensed consolidated interim financial statements.

MINAURUM GOLD INC.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
SIX MONTHS ENDED OCTOBER 31, 2021 AND 2020
(Unaudited - expressed in Canadian dollars)

1. Nature and Continuance of Operations:

Minaurum Gold Inc. (“the Company”) was incorporated under the Business Corporations Act of British Columbia on November 13, 2007. The Company is an exploration stage company and engages principally in the acquisition and exploration of mineral properties. The Company’s head office address is Suite 2710 – 200 Granville Street, Vancouver, BC, V6C 1S4, Canada. The registered and records office address is 10th Floor, 595 Howe Street, Vancouver, BC, V6C 2T5, Canada. The Company is listed on the TSX Venture Exchange.

The Company is in the process of exploring its exploration and evaluation assets and has not yet determined whether its exploration and evaluation assets contain economically recoverable mineral reserves. The underlying value and the recoverability of the amounts shown as exploration and evaluation assets are entirely dependent upon the existence of economically recoverable resource reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the exploration and evaluation assets, and future profitable production or proceeds from the disposition of the exploration and evaluation assets.

The Company has a history of losses with no operating revenue, an accumulated deficit of \$47,911,310 since inception, and a working capital of \$8,728,508 as at October 31, 2021. Management recognizes that the Company, in the long term, will need to generate additional financial resources to meet its planned business objectives. However, there can be no assurances that the Company will continue to obtain additional financial resources and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations and exploration activities. Furthermore, failure to continue as a going concern would require that the Company’s assets and liabilities be restated on a liquidation basis which would differ significantly from the going concern basis. Based on the financing completed during the six months ended October 31, 2021 (Note 7(b)), management believes it has sufficient funding for the ensuing 12-month period.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The Company continues to adapt and respect travel restrictions, challenges with movement of goods and services with suppliers as conditions evolve.

These condensed consolidated interim financial statements do not reflect adjustments, which could be material to the carrying values of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

2. Significant Accounting Policies:

a) Basis of presentation:

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounts Standards (“IAS”) 34, “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board and Interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

MINAURUM GOLD INC.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
SIX MONTHS ENDED OCTOBER 31, 2021 AND 2020
(Unaudited - expressed in Canadian dollars)

2. Significant Accounting Policies (continued):

a) Basis of presentation (continued):

The accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those used in the preparation of the audited consolidated financial statements for the year ended April 30, 2021. These condensed consolidated interim financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting except for supplemental cash flow information.

The condensed consolidated interim financial statements of the Company are presented in Canadian dollars, which is the functional currency of the parent company.

These condensed consolidated interim financial statements were authorized for issuance by the Board on December 14, 2021.

b) Basis of consolidation:

These consolidated financial statements include the financial statements of the Company and its wholly-owned Mexican subsidiaries, Minera Minaurum Gold S.A. De C.V. and Minera Citation S.A. de C.V., which carry out exploration activities in Mexico, and its wholly-owned USA subsidiary, Minaurum Corp., a Delaware company, which carries out exploration activities in the USA. All material intercompany transactions and balances have been eliminated on consolidation.

c) Significant Accounting Estimates and Judgments:

The preparation of the condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The condensed consolidated interim financial statements include estimates which, by their nature, are uncertain. The impact of such estimates is pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Recoverability of receivables

The Company estimates the recoverability of IVA paid on expenditures incurred in Mexico.

MINAURUM GOLD INC.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Unaudited - expressed in Canadian dollars)

2. Significant Accounting Policies (continued):

- c) Significant Accounting Estimates and Judgments (continued):

Critical accounting estimates (continued)

Share-based payments

The fair value of stock options and warrants issued are subject to the limitations of the Black-Scholes option pricing model and Geske compound option pricing model that both incorporates market data and involves uncertainty in estimates used by management in the assumptions. Because the Black-Scholes option pricing model and Geske compound option pricing model require the input of highly subjective assumptions, including the volatility of share prices, changes in subjective input assumptions can materially affect the fair value estimate.

Deferred income tax liability

The Company estimates the expected manner and timing of the realization or settlement of the carrying value of its assets and liabilities and applies the tax rates that are enacted or substantively enacted on the estimated dates of realization or settlement.

Critical accounting judgments

Examples of significant judgments, apart from those involving estimation, include:

Exploration and evaluation assets

Management is required to make judgments on the status of each mineral property and the future plans with respect to finding commercial reserves. The nature of exploration and evaluation activity is such that only a few projects are ultimately successful, and some assets are likely to become impaired in future periods.

Functional currency

The Company applied judgment in determining its functional currency and the functional currency of its subsidiaries. Functional currency was determined based on an analysis of the consideration factors in IAS 21, The Effects of Changes in Foreign Exchange Rates.

3. Capital Management:

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The capital structure of the Company consists of shareholders' equity. The Company is not exposed to any externally imposed capital requirements.

The exploration and evaluation assets in which the Company currently has an interest are in the exploration stage. As such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

MINAURUM GOLD INC.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS SIX MONTHS ENDED OCTOBER 31, 2021 AND 2020 (Unaudited - expressed in Canadian dollars)

3. Capital Management (continued):

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the six months ended October 31, 2021 and 2020.

4. Receivables:

	October 31, 2021	April 30, 2021

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets.

The Company has investigated title to its exploration and evaluation assets and to the best of its knowledge title to the assets is in good standing.

a) Aurena Property, Oaxaca State, Mexico:

On April 30, 2009, the Company acquired an option, subsequently amended, to earn a 100% interest in the Aurena Property for 3,500,000 shares (issued) and \$20,000 cash (paid). The property is subject to a net smelter return royalty ("NSR") of 3%. In November 2010, a related party of the Mexican company that is the optionor of the underlying agreement became a director of the Company.

The Company paid US\$140,000, issued 1,100,000 common shares valued at \$514,500 and incurred property expenditures of US\$2,500,000 to earn its 100% interest in the Aurena Property.

5. Exploration and Evaluation Assets (continued):

a) Auren Property, Oaxaca State, Mexico (continued):

Upon commencement of commercial production, the Company shall issue 2,000,000 shares to the vendor. The Company may elect to purchase up to 2% of the NSR for payment of the greater of US\$4,000,000 or the equivalent amount of 0.9999 fine physical gold measured in troy ounces priced at the New York closing spot price on the closing date.

b) Adelita Property, Sonora State, Mexico:

On April 23, 2010, the Company acquired an option, subsequently amended, to acquire a 100% interest in a mineral property known as the Adelita property, comprised primarily of a land package under option with a Mexican company that is the optionor of the underlying agreement, along with a minor claim under option with a separate landowner. In November 2010, a related party of the Mexican company became a director of the Company. In consideration, the Company paid \$1 to acquire the option.

The Company previously paid US\$595,000 and issued 925,000 common shares valued at \$470,000 pursuant to the option and owns 100% of the Adelita Property.

The property is subject to an NSR of 2%. On April 8, 2021, the Company issued 200,000 common shares valued at \$80,000 to eliminate a commercial production payment of 500,000 common shares.

In the year ended April 30, 2021, the Company granted to Inifinitum Copper Corp. ("Inifinitum", formerly ASR Resources Corp.) an option to earn an 80% interest in the Adelita Project. In consideration for the granted option, Inifinitum will pay the Company the following:

- a) \$50,000 on signing (received);
- b) \$43,333 in property taxes on or before 10 business days after signing (received); and
- c) \$25,000 on or before August 26, 2021 (received).

In addition, on the first day of listed trading on a the TSX Venture Exchange or Canadian Securities Exchange ("Listing Date"), Inifinitum must issue 16% of the total issued and outstanding common shares of Inifinitum calculated post issuance to the Company. Inifinitum must incur at least \$3,000,000 of expenditures on the Adelita Project on or before five years from the Listing Date.

After completing the option to earn 80%, the Company and Inifinitum will enter into a joint venture agreement. The Company's 20% retained interest will be carried until Inifinitum carries out a total of \$4,750,000 in expenditures along with completing both a mineral resource calculation in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects and a Preliminary Economic Assessment.

Inifinitum has 12 months from signing the definitive agreement to complete a listing, with a \$100,000 penalty if the deadline is exceeded. If Inifinitum fails to complete its listing after 18 months, Inifinitum will return the Adelita Project to the Company in good standing.

5. Exploration and Evaluation Assets (continued):

f) Taviche Project, Oaxaca State, Mexico:

On January 25, 2019, the Company entered into a purchase and sale agreement with Gold79 Mines Ltd. (formerly Aura Resources Inc) and its wholly owned subsidiary, Aura Resources Mexico, S.A. de C.V. (collectively, "Gold79") to purchase an 80% interest in Gold79's Taviche Project located in Oaxaca State in Mexico. In consideration, the Company issued 100,000 common shares (valued at \$40,000) upon closing of the transaction and will issue an additional 100,000 common shares upon community approval of a drill program. In addition, the Company has reimbursed Gold79 for all concession fees paid during 2018 and paid remaining concession fees to bring the property into good standing until April 30, 2019 (paid \$51,954 or US\$39,452). Gold79 has also granted to the Company an exclusive option to acquire the remaining 20% of the Taviche Project for a total purchase price of \$1,000,000. The Taviche Project is subject to a 1.5% NSR.

On December 31, 2020, the Company granted to Compania Minera Cuzcatlan, S.A. de C.V. ("CMC"), a wholly owned subsidiary of Fortuna Silver Mines Inc. ("Fortuna"), an exclusive option to earn up to an 80% interest in the Taviche Project. CMC can initially earn a 60% interest ("Initial Interest") by making cash payments to the Company and incurring expenditures as follows:

- i) US\$75,000 cash payment on the effective date (received);
- ii) US\$100,000 cash payment on or before the first anniversary of the effective date;
- iii) US\$125,000 cash payment on or before the second anniversary of the effective date;
- iv) US\$150,000 cash payment on or before the third anniversary of the effective date; and
- v) incur a total of US\$4,000,000 in expenditures on the Taviche Property by the third anniversary of the effective date.

Upon earning the Initial Interest, Fortuna can then earn an additional 20% interest for a total 80% interest in the Taviche Project by funding the exercise of the Company's option to acquire the remaining 20% of the Taviche Property from Gold79. Upon CMC acquiring the Initial Interest, the parties will form a joint venture, pursuant to which the Company will retain a 20% interest which shall be carried until a positive construction decision is made under the terms of the agreement.

If a positive construction decision is not made within seven years of the date of the option agreement, the Company will have the option, exercisable for a period of 60-days, to purchase CMC's interest in the Taviche Project in exchange for a cash payment equal to Fortuna's work expenditures to date.

g) Biricu Project, Guerrero State, Mexico:

On January 13, 2021, the Company renegotiated the terms of the underlying royalty on the Biricu Project. The Biricu Project is subject to a 2% NSR. The Company has been granted an option to repurchase one-half of the NSR which would result in the NSR being reduced to 1% of net smelter returns ("NSR Repurchase Option"). The NSR Repurchase Option may be exercised by cash payment as follows:

8. Segmented Information:

The Company operates in one segment being the acquisition and exploration of exploration and evaluation assets. The Company operates in Mexico and the United States. Geographic information is described in note 5.

9. Financial Instruments and Risk Management:

Financial instruments

The Company measures financial instruments using a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The carrying values of cash, receivables and accounts payable and accrued liabilities approximate their fair values because of the short-term nature of these instruments.

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

a) Credit risk:

Credit risk is the risk of loss associated with a counter party's inability to fulfill its payment obligations. The Company's receivables consist primarily of amounts due from a Canadian government agency and cash is held with large and stable financial institutions.

b) Liquidity risk:

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet its liabilities when they come due. As of October 31, 2021, the Company had cash of \$9,369,070 and current liabilities of \$729,402.

c) Market risk:

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

(i) Interest rate risk:

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

(ii) Foreign currency risk:

The Company is exposed to foreign currency risk on fluctuations related to cash, prepaid expenses and accounts payable and accrued liabilities that are denominated in United States Dollars and Mexican Pesos.

The exposure of the Company's cash and prepaid expenses to foreign exchange risk is as follows:

	October 31, 2021		April 30, 2021	
	Foreign currency amount	Amount in CAD dollars	Foreign currency amount	Amount in CAD dollars
United States dollars:				
Cash	1,523,243	\$ 1,886,384	32,050	\$ 39,373
Mexican pesos:

(ii) Foreign currency risk (continued):

The exposure of the Company's accounts payable to foreign exchange risk is as follows:

	October 31, 2021		April 30, 2021	
	Foreign currency amount	Amount in CAD dollars	Foreign currency amount	Amount in CAD dollars
United States dollars:				
Accounts payable	304,065	\$ 376,554	84,818	\$ 104,199

Total financial liabilities		\$ 648,510		\$ 201,153

As at October 31, 2021, the Company had net monetary assets denominated in United States dollars totaling approximately US\$1,219,000. The Company has determined that a 10% increase or decrease in the US dollar against the Canadian dollar on these instruments, as at October 31, 2021, would result in approximately \$257,800 change to comprehensive loss for the period.

(iii) Price risk:

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.
